

Lonza Penicillin-Streptomycin

Lonza

Code	Description	Pack
LZ09-757F	Pen/Strep, stock 20K/20K	500mL
LZ17-718R	Pen/Strep/L-Glutamine mixture 25K/25K/200 mM	25 x 4.5mL vials
LZ17-745E	Pen/Strep/Fungizone 10K/10K/25µg	100mL
LZ17-745H	Pen/Strep/Fungizone 10K/10K/25µg	20mL
LZDE17-602E	Penicillin 10.000 UI/mL and Streptomycin 10.000 UI/mL	100mL
LZDE17-602F	Penicillin 10.000 UI/mL and Streptomycin 10.000 UI/mL	500mL
LZDE17-603E	Penicillin 5.000 U/mL and Streptomycin 5.000 U/mL	100mL

Lonza Earle's BSS

Lonza

Balanced salt solutions help to maintain pH and provides the cultured cells with a sufficient amount of salt ions that balances the amount of water inside the cell.

Code	Description	Pack
LZBE02-027F	EBSS with HEPES low NaHCO3	500mL
LZBE10-502F	EBSS with Phenol Red	500mL

Lonza Dulbecco's Phosphate Buffered Saline

Lonza

Code	Description	Pack
LZ04-479Q	DPBS (1X) with Ca & Mg, Glucose and Pyruvate	500mL
LZBE17-512F	DPBS 0.0095M (PO4) without Ca and Mg	500mL
LZBE17-512Q	DPBS 0.0095M (PO4) without Ca and Mg	1L
LZBE17-513F	DPBS (1X) with Ca & Mg	500mL
LZBE17-513Q	DPBS (1X) with Ca Mg	1L
LZBE17-515F	DPBS (10X) without Ca or Mg	500mL
LZBE17-515Q	DPBS (10X) without Ca or Mg	1L

Lonza UltraSALINE A

Lonza

UltraSALINE A is a HEPES buffered saline used in trypsinization protocols of reduced-serum and serum-free systems and preparation of stock solutions.

Code	Description	Pack
LZ12-747F	UltraSALINE A without Phenol Red	500mL

Lonza Phosphate Buffered Saline

Lonza

- PBS-ET used in animal embryo transfer procedure
- PBS EDTA used in procedures of generating human dendritic cells from monocytes

Lonza Veronal Buffer

Lonza

Veronal Buffer is used as a diluent and/or stabiliser in serological testing.

Code	Description	Pack
LZ12-624E	Veronal Buffer (5X)	100mL

Code	Description	Pack
LZBE02-017F	PBS EDTA	500mL
LZBE17-516F	PBS (1X) without Ca or Mg	500mL
LZBE17-516Q	PBS (1X) without Ca or Mg	1L
LZBE17-517Q	PBS (10X) without Ca or Mg	1L
