Hanna Checktemp® 1 Pocket Thermometer

A compact food probe with a stainless steel sensor on a 1m flexible cable. Highly accurate it is designed to take fast response temperature measurements in semi-solids and liquids. The flexible silicone cable also makes this meter ideal for taking readings in hard to reach locations. Featuring a water resistant casing and battery compartment both test to IP65, the latest model is ideal for use in food preparation and production including steamy kitchen environments and chilled storage.

- High accuracy: ±0.2 between -30°C and +120°C
- Auto shut-off: prolongs the battery life; also selectable from 8min, 60 min or off
- Tested to and compliant with the European standard for food thermometers EN13485
- Automatic CAL Check™ provides automatic calibration check every time Checktemp® 1 is switched on to verify good working order
- Easy read digital display - whatever the viewing angle
- Monitors the temperature sensor and alerts the user if it is faulty by displaying a clear ERROR message on the display
- Supplied with desktop stand, batteries and instructions
