WELCOME

FOCUS Autumn 2021 Edition

Welcome to another fantastic issue of FOCUS! Packed with exclusive offers on laboratory products from market leading brands. We also have some exciting NEW products in this edition, including the revolutionary Ecodyst Hydrogen rotovaps and SLS Lab Pro liquid nitrogen and gas generators. Speak to your local account manager to find out how these products can change your lab life for the better!

In addition to this issue, visit our website for supplementary 'FOCUS Extra' online offers, for even more great savings on many other fantastic products.

REMEMBER:

These offers are **EXCLUSIVE** to Analab and valid until 31st Dec 2021

Product Catalogues

The Analab Product Catalogue (2020/21) features 20% NEW products and the Chemicals Catalogue includes products from leading brands including Honeywell Fluka™, Honeywell Riedel-de Haën, Hydranal™, Chromasolv™, Reagecon and SLS Select chemicals.

Whatever your application you're sure to find the product to suit your needs.

THE SCIENCE OF LYSING

www.analab.co.uk / www.analab.ie (Product F16586)

Eppendorf 5920 R Centrifuge 3 YEARS

eppendorf

Delivers extraordinary high capacity in a very compact and ergonomic product design. It has similar dimensions as competing refrigerated 3L models and yet features a superior capacity, making it the ideal instrument for high-throughput applications.

- Multi-lingual operating system, large backlit display, saves up to 99 user-defined programs
- FastTemp pro® function for automated pre-cooling
- Aerosol-tight QuickLock® caps and lids
- Centrifuge lid with soft-touch lid closure
- Quiet operation to improve your work environment
- Automatic rotor recognition and imbalance detection

Supplied with S-4xUniversal-Large rotor, universal buckets, adapters for 5/15/25/50mL conical tubes and plates. Capacity up to 40 x 50mL/96 x 15mL/ 8 x DWP.

23%

Eppendorf 5430 R Centrifuge Bundle 2 YEARS

eppendorf

Combine the best features of a microcentrifuge (small footprint) and multipurpose centrifuge (versatility) in one instrument. The 5430 R spins rotors for Eppendorf tubes.

PCR strips and can also accommodate rotors for microplates and 15/50mL conical tubes.

- ECO shut-off engages after 8 hours of non-use
- Soft-touch one-finger lid closure for ergonomic operation
- Saves up to 50 user-defined programs
- Automatic rotor recognition and imbalance detection
- Eppendorf QuickLock® for quickly opening and closing the rotor lid
- FastTemp pro® function for programmable pre-cooling
- Keypad control

Supplied with FA-45-30-11 fixed angle rotor with aerosol tight aluminium lid for 30 x 1.5/2.0mL tubes and A-2-MTP swing out rotor with two MTP buckets and windshield.

Eppendorf 5810 R Centrifuge Bundle

3
YEARS

eppendorf

Offers a cost effective solution for medium to high-throughput applications. Combining versatility and capacity for both tubes and plates with a compact footprint.

- Aerosol-tight Eppendorf QuickLock® caps and lids
- Quiet operation to improve your work environment
- Automatic rotor recognition and imbalance detection
- FastTemp function for fast pre-cooling
- Automatic ECO-shut off mode to reduce energy consumption
- Built in condensate drain eliminates water accumulation
- Dynamic compressor control (DCC) technology for optimised cooling performance

Supplied with A-4-81 swing out rotor with four 400mL rectangular buckets, a 48 x 15mL/20 x 50mL adapter and FREE FA-45-30-11 rotor for 30 x 1.5/2.0mL tubes with aerosol tight and QuickLock® lid.

New Brunswick™ S41i CO₂ Incubator Shaker Bundle

2 YEARS

eppendorf

The S41i incubator shaker with its six-sided direct-heating profile provides gentle convection circulation of the chamber atmosphere. Combined with precise CO₂ control and built-in technology the S41i offers a highly stable environment for reliable non-adherent cell growth.

- Perforated shelf allows for static incubation at the same time as shaking
- Stable, uniform and vibration-free shaking
- Automatic high temperature disinfection and inner/outer door
- Precise and easy controls with intuitive touch screen
- Humidification included
- Two devices stackable gives increased capacity
- Shaking speed 25 - 400RPM (25 - 300RPM if stacked)

Supplied with 1 x universal platform and 2 x sticky pads.

The Eppendorf Mastercycler® nexus family offers flexibility and connectivity. With intuitive software for ease of programming and a compact footprint, up to 3 Nexus thermal cyclers can be connected and centrally controlled. Available with a silver block option for fast heating (5°C/sec), universal block option for flexibility or flat block option which allows for the use specialist consumables such as slides without an adaptor. The flexlid® concept incorporates automatic height adjustment of the lid allowing for the use of all types of consumables. All blocks feature SteadySlope® technology meaning the heating and cooling ramp rates are identical in both gradient and normal operation.

- Protocols can be stored in an individual password protected folder
- Intuitive graphic programming interface

Eppendorf Electronic Multipipette® E3 and E3x Dispensers

eppendorf

Functions according to the positive displacement principle. The motor driven dispenser gives full volume control, improved accuracy and reproducibility while reducing physical strain during use. The repetitive dispensing modes contribute to reducing fatigue by decreasing the number of movements for the user; filling the tip once allows dispensing up to 100 times. Accommodates more than 5000 different dispensing volumes between 1µL to 50mL. E3x versions include additional aspirate, titrate and sequential dispense functions.

Eppendorf Research Plus Move It® Multi-Channel Pipettes with Adjustable Tip Spacing

3
YEARS

eppendorf

The new adjustable tip spacing pipette Move It® accelerates and simplifies synchronous pipetting of a series of samples. A unique design without tubing connections results in increased precision and durability as well as user and sample safety.

- Efficient sample transfers from one vessel type to another.
- Pre-defined settings allow for quick switches back and forth between different formats
- Time-saving thanks to rotatable pipette head – 360°
- Tubeless system for reliability and reproducible results- no cable tangle and tubing-porosity, for consistently reliable robustness and precision

Axygen® Liquid Level Sensing Tips for Hamilton Star Automation Systems

Available in nonsterile, sterile, non-filtered and filtered.

Conductive black polypropylene tips in 96 well hanging tip rack format. Designed for Hamilton® Microlab® STAR, STARlet, STARplus and Nimbus® workstations.

- RNase-/DNase-free
- Nonpyrogenic

SLS Lab Pro Safevac Aspiration System

Designed for laboratory waste recovery and separation of liquid and solid. Can be widely used in cell culture, DNA extraction, microplate waste removal, and any other liquid separation or recovery.

- Sensitive level sensor to prevent liquid overflow during operation
- Waste bottle, tubing and handle are fully autoclavable
- Lid, tubing and handle are easy for disassembling, cleaning and autoclaving
- Wide range of adapters to fit tubes and microplates

SLS Lab Pro SM Series Micro Analytical Balances

5 YEARS

The SLS Lab Pro SM Series of balances have been developed for high end micro weighing with the automatic elimination of static electricity at a competitive price. A built in fanless ioniser eliminates static and a large weighing chamber with interlockable slide doors allows operation with either hand.

- One touch automatic calibration
- Internal data memory function for up to 200 sets of data
- GLP/GMP/GCP/ISO compliant output
- Built-in temperature, humidity, and atmospheric pressure sensors
- RS-232C and Quick USB interfaces as standard
- AD-1688 weighing data logger as standard

SLS Lab Basics Mini Vortex Mixer

5 YEARS

A simple, touch start operation enables exceptional mixing performance with one handed operation, and shaking stops when the tube is lifted.

- Non-slip feet ensure the unit stays in place
- Made from durable ABS and silicone materials to resist most commonly used chemicals
- Quiet operation with low vibration, noise level (full speed, unloaded): 53dB
- Can be used with tubes ranging from 2 to 50mL
- Supplied with replacement silicone cap and universal power adapter

OHAUS Multi-Tube Vortexers

2
YEARS

OHAUS Multi-Tube Vortexers are ideal for hands-free, high-throughput sample processing. Interchangeable foam racks for vortexing tubes from 10 to 29mm Ø are available. Strong suction cup feet reduce motion and prevent sliding on the work surface. The digital model offers exact speed control for applications that demand repeatable results.

- Easily process up to 50 samples at one time - can be customized for your application with six different tube racks
- For challenging samples, enhance vortex action and create a more vigorous mix with the programmable pulse mode on the digital model
- Supplied with detachable 3-wire cord and plug (included), foam rack for 50 x 12mm diameter tubes

Corning® LSE™ Incubated Shakers

CORNING

This cabinet-style incubator has a compact footprint and can also be stacked to maximize space efficiency. The built in orbital shaker accepts a large assortment of platforms and clamps that can accommodate flasks, Petri dishes, and test tube racks.

- Outstanding temperature uniformity
- Large viewing area for undisturbed monitoring of samples
- Multiple shelving options
- Precision control shaking mechanism
- Speed range: 20 to 300RPM
- Temperature range: ambient +5 to 80°C

OHAUS Frontier™ FC5513 Microcentrifuge

2
YEARS

The FC5513 is a high-speed benchtop microlitre centrifuge capable of generating 17317 x g, with four optional rotors designed for a range of essential lab applications. Engineered with convenient operation in mind, the FC5513 features a uniquely designed splash-proof front panel with modern touch-wheel control on an intuitive interface.

- Select from a variety of rotors designed for a range of applications
- Offers standard 24 x 1.5/2mL microtube rotors with a biocontainment option
- Can also support spin columns and haematocrit capillary tubes when used with additional rotor options
- Compact design saves valuable benchtop space

Accuris SmartWasher™ 96 Microplate Washer without Manifold

2
YEARS

Benchmark
Scientific

Full plates, partial plates, and strips with U, V, C, or flat bottoms are accepted by this fully automated washer. All parameters, including dispense volume, suction time, soak and shake cycles, and shaking speed are easily programmed using the large 4.3" LCD display and keypad. The washer comes equipped with 2 wash bottles, 1 rinse bottle and a waste bottle.

- Precision control of aspiration needle position accurate to 0.1mm
- Minimal residual liquid, $\leq 1\mu\text{L}/\text{well}$
- Auto rinse function eliminates cross contamination
- Up to 100 wash protocols can be customised and stored
- Liquid level sensors in wash and waste bottles
- Wash protocols can be transferred via flash drive
- 8 or 12 channel manifold - sold separately - **see Analab website**

SLS Select Deep Well Storage Plates

SLS Select deep well storage plates are high performance plates produced in cleanrooms that are certified for medical device assembly. They are manufactured in pure virgin medical grade polypropylene (PP) with class leading low levels of extractable elements.

- ANSI-SBS footprint
- Tested for low extractables
- Alpha-numeric reference grid
- Suitable for automated or manual applications
- For use in sample storage at 86°C to DNA denaturation at 100°C
- Autoclavable
- No inner edges to allow better collection of magnetic beads
- Manufactured under DNase/RNase free environment
- Coloured versions available

Syngene NuGenius Gel Documentation System

NuGenius is a compact gel documentation workstation, which uses a choice of UV, blue or white lighting options giving the flexibility to image fluorescent and visibly stained gels at the workstation. A groundbreaking 5 million pixel CCD camera gives superb pixel resolution and unrivalled sensitivity, and offers a maximum viewing area of 20 x 24cm which is very large for such a small, compact unit.

- Compact workstation - plenty of bench space for your research
- Complete with built-in processor, touch screen and NuGenius software
- Easily capture and edit images on screen without a computer
- Motor driven zoom lens - automatic set up for easy image capture
- 5m pixel camera - resolves close bands and detects nanogram amounts

Corning® Automatic Cell Counter

Corning® Cell Counter can perform a single cell count in less than three seconds. It can utilise the CytoSMART™ cloud app to process the images in the Microsoft Azure Cloud Computing Platform. This means that it can analyse the images faster than any existing on board processor. The cell counter uses a sophisticated Deep Neural Network for cell detection.

- State-of-the-art image analysis software allows for optimal accuracy
- When Trypan Blue is added the system can also detect cell viability
- The cell counter can detect clusters of cells, which leads to accurate cell counts of highly concentrated samples (up to 1×10^7 cells/mL)
- Works with common reusable glass hemocytometer, no consumables required
- Instantly generates a report containing the counted cell concentrations and viability with the image of the counted sample and the counted cells (live and dead) clearly indicated
- 5MP CMOS camera

Grant LT Ecocool Energy Efficient Refrigerated Heating Circulating Baths

grant

Innovative, eco-friendly, refrigerated heated circulating baths offering significant running cost savings whilst delivering powerful cooling. Consisting of two models, the LT ecocool range is supplied assembled as ready to use kits, complete with accessory hosing, clips and connectors as standard.

Thermostat and chiller work in harmony, neither will operate alone, eliminating any danger of overheating or freezing.

- 3 temperature presets
- Working area (d x w) mm 118 x 154
- No-spill valved front drain
- Intuitive user interface
- Eco mode optimises the cooling control needed enabling rapid cool down
- Temperature range of hosing supplied:
-40°C to 100°C (can be cut to length as required)
- Supplied tubing 2 x 1.5m ID 9mm Ø

Thermo
SCIENTIFIC

Thermo Scientific™ Heratherm general protocol microbiological incubator line is designed with sample safety in mind, for applications in pharmaceutical, medical, food and research laboratories.

- Gravity convection provides gentle air flow and minimal drying out
- Temperature range from ambient +5°C to 75°C
- Temperature uniformity of $\pm 0.6^{\circ}\text{C}$ (measured at 37°C)
- Temperature stability of $\pm 0.2^{\circ}\text{C}$ (measured at 37°C)
- Corrosion-resistant stainless-steel chamber (AISI 430)
- Intuitive user interface for setting temperature
- Large, easy to read vacuum fluorescent display
- Internal glass door allows sample viewing without impacting temperature

SLS Lab Pro Laboratory Incubator

SLS LAB PRO

Chamber manufactured from bright polish stainless steel lagged with high efficiency thermal insulation. Digital temperature control up to 80°C with program feature run back timer. Over temperature auto set and Class 1 over temperature protection. Single insulated door, lockable with 2 point door engagement for an even seal.

- Door chime when left open
- Inner clear polycarbonate door
- Anti-bacterial paint finish
- Temperature range ambient +5°C to 80°C
- PID digital, LED display showing actual or set temperature, resolution 0.1°C
- Gravity natural convection
- Temperature sensor fail alarm with error reporting
- Shelf runners adjustable in 20mm steps vertically

Thermo Scientific™ Heratherm Ovens

Thermo Scientific™ Heratherm™ general protocol ovens are designed for daily laboratory work. Featuring temperature uniformity and low energy consumption, with unique door design and highly efficient, insulation-reducing heat emission.

- Gravity convection provides gentle air flow and minimal drying out
- Operating temperatures from 50°C to 250°C
- Automatic over-temperature alarm system
- Built in timer
- Corrosion-resistant stainless-steel chambers with rounded corners
- Large, easy to read vacuum fluorescent display
- Microprocessor-controlled touch button operation
- Doors can be opened over 180°C

Benchmark UV-Clave UltraViolet Chamber

2
YEARS

Benchmark
Scientific

Short-wave UV light is an effective method for the disinfection of surface DNA, RNA and microorganisms. Highly focused UV irradiation is used to disinfect tools, vessels and other research items, eliminating up to 99% of surface contamination. Includes powerful UV-C bulbs on both the top and bottom of the chamber with a shelf that allows for >90% of UV-C light transmission and highly reflective chamber walls, the result is true 360° exposure.

- Integrated auto shut-off prevents illumination when the door is open
- Improves quality of PCR research by reducing potential contaminants
- Adjustable cycle time
- Chamber comes with 2 wire and 1 transparent shelf

Astell Swiftlock Autoclaves Front Loading

The Astell Swiftlock range is fitted with heaters in the base of the chamber and is ideal for sterilising liquids (media), discard, glassware and laboratory instruments.

- A fully programmable touch screen controller
- An electropolished stainless steel chamber
- Holdwarm and delayed start features
- Over temperature protection
- Cooling lock
- Safety valve test
- Emergency stop button
- External pressure gauge
- Validation port and drain valve

ECO-FRIENDLY SOLUTIONS FOR STERILISING LIQUID WASTE

NEW

BioSink & Autoclave Combo

This unit features a top-loading autoclave and an Astell BioSink. Any wastewater washed into the self-contained washbasin of the BioSink is sterilised using heat before it is dispatch to the drain.

Contact Astell for more information about the standard or customised BioSink & Autoclave Combo unit.

Thermal Batch EDS

This Effluent Decontamination System (EDS) captures all material that is washed down a facility's drains, which it then sterilizes with heat before dispatching to the sewer.

With a configurable design and structure, these units can be built to handle volumes of effluent from sites of any size.

Labogene CoolSafe Superior Touch 95-80 Freeze Dryer Bundle

1
YEAR

SCANVAC

- Touchscreen controller and display of temperature, pressure and time during operation
- Large capacity, seamless stainless steel condenser with external cooling coils and electric de-icing as standard
- Front-loading for ease of access, loading and supervision
- Fully automatic control of pre-freeze in 5 steps. - and primary and secondary drying in 10 steps. Controlling shelf temperature from -80°C to + 50°C for correct ice crystal formation and freeze drying
- Condenser ice capacity of max. 10kg/24 hours
- The chamber can accommodate from 2 to 8 electrically heated shelves with trays, giving a total area ranging from 0.3m² to 1.2m²

Promotional Bundle complete with bulk rack including 2 x heated shelves and 105L/min vacuum pump RZ 6

Ecodyst Disruptive Evaporation Technology

ecodyst

Set new sustainable standards by improving energy efficiency and rates of evaporation – saving money, time and your carbon footprint.

Ecodyst Hydrogen® Rotary Evaporator

The high-performance all-in-one rotary evaporator. Revolutionary self-cooling condenser. Efficient. Smart.

Ecodyst EcoChyll X1

A powerful, small footprint, energy-efficient smart self-cooling condenser that upgrades any brand of rotary evaporator.

Proprietary first-in-class highly efficient metallic condensers for rotary evaporators

Direct self-cooling technology that truly eliminates dry ice and antifreeze chillers

Environmentally friendly, energy efficient and sustainable

SLS Lab Pro NG1-1 Nitrogen Gas Generator

LABGAS+ NG is the latest range of nitrogen PSA laboratory gas generators from SLS. Utilising the reliable and efficient PSA technique of separating nitrogen and oxygen to produce high quality nitrogen gas at various flows and purities. The generators are controlled using the latest in HMI touch screen technology to display the process in real-time, inlet/outlet pressures, trend graphs and much more.

- Range of flow-rates
- With or without internal oil-free air compressor
- Compact and quiet design
- Purity 99.9995% - 98%
- Auto-run facility
- Energy saving mode
- Outlet flow indicator (% flow)
- Trend graphs into MS excel
- Alarms with help menu
- Audible alarm sounder
- Remote access via internet

SLS Lab Pro TRITON2 Liquid Nitrogen Generator

TRITON2 and TRITON2+ are the latest 'air-cooled' liquid nitrogen generators from SLS. Utilising the lowest powered cooling system to make TRITON2 the most efficient small 10L/day LN₂ production system available. The liquid nitrogen is stored within a suitable sized vacuum insulated tank and the product can be dispensed using its specially designed front loading flask dispenser.

- Air cooling, no water chiller required
- Internal air compressor
- Nitrogen produced using our own PSA nitrogen generator
- LN₂ at 99% purity
- Nitrogen injection system for pre-cooling of gas prior to liquefaction's
- All cryogenic parts are vacuum insulated
- Colour touch screen control
